

THE CUSTOMEASE™ SERIES

The CustomEase™ Series is the most exciting product to hit the graphics industry in years. CustomEase™ covers are specially formulated to accept color or black and white image transfers from laser copy machines or laser printer output. CustomEase™ covers are ideal for short run, color graphics where quick turnaround and high image are critical. Not only will you get your prospective client's attention, you will KEEP IT!

While many systems purport to allow quick and easy customization, ChannelBind™ has perfected "IMAGE FUSION." The result is a permanent color or black and white image which is virtually impermeable to water or other elements. ChannelBind's™ CustomEase™ Series process represents the only single edition, on-demand book making system available today.

Style	Channel Size	Format	Sheet Capacity (based on 20# copier paper)	Color
Hard	AA, A, B, C	9" x 11"	1 to 150 sheets of paper	White
Soft	AA, A, B, C	9" x 11"	1 to 150 sheets of paper	White
